PUBLIC NOTICE

WATER SUPPLY RATIONING PROGRAM 2024/25 F/Y

Ruiru and Juja are among the fastest-growing towns in Kenya, resulting in a significant increase in water demand that has exceeded our current production capacity. To ensure fair and equitable distribution of available water, Ruiru-Juja Water and Sewerage Company (RUJWASCO) has adopted a water rationing program. We kindly urge all residents and customers to use water responsibly and adopt the following water-saving practices:

- Report any leakages or pipe bursts outside your premises through our toll-free hotline 0800 720 820, via WhatsApp (0743 944 876), or on our official RUJWASCO Facebook page.
- Install adequate water storage facilities, such as plastic tanks, to ensure you have sufficient water during the supply intervals.
- Avoid using treated drinking water for irrigation of lawns, flower beds, or vegetable gardens.
- Check and repair leaking taps or fittings within your premises and avoid leaving taps dripping.

Your cooperation will go a long way in ensuring that all residents receive their fair share of water as we continue working on long-term solutions to increase supply capacity and pressure.
